

License/IRUG Membership Fee Increase

July 2015

Announcement

October 2015 will mark the fourth anniversary of our last 'License / IRUG Membership' rate increase. In order to maintain high levels of service, support and continued software development, *a rate increase will take effective for all license renewals and new agreements executed after Oct. 1, 2015.* The new annual rates are as follows:

	Domestic Users	International Users
Full Membership Regular	\$28,500	\$54,500
Full Membership Super User	\$63,500	\$79,000
Multi User Participant	\$9,500	\$17,000
Single User Participant	\$6,500	\$12,000

Exceptional Offer

In order to minimize the budgetary impact to the existing RELAP5-3D community, BEA will allow existing licensees to extend their current license agreements for up to five years at today's current license /membership rates. Rates in effect through Sept. 30, 2015 are as follows:

	Domestic Users	International Users
Full Membership Regular	\$25,000	\$48,000
Full Membership Super User	\$56,000	\$70,000
Multi User Participant	\$8,400	\$15,200
Single User Participant	\$5,600	\$10,700

If your company takes advantage of this offer, you will not see a rate increase until 2020! Your company will be billed annually and you can terminate the license agreement without any financial penalty on the anniversary of the effective date of your license agreement. It is recommended that you take advantage of this offer which will expire on Sept. 30, 2015 and lock in the current rates for the next five

years. You can renew your license agreement at any time between now and Sept. 30. The five year license extension will be added to the existing termination date of your current agreement.

Example

If your current license expires in Feb. 2016, you can execute a license renewal at any time between now and Sept. 30, 2015 for five years from the Feb. 2016 date. Your new agreement would then expire in 2021 and fees would be fixed at today's rates. You would not be invoiced until Feb. 2016. The first invoice would be for the one year period Feb. 2016 thru Jan. 2017. Future invoices will be issued in one year increments thru 2021. The license can be terminated on the anniversary of the effective date without any financial penalties.

Universities

No changes are anticipated at this time and IRUG will continue to provide free RELAP5-3D licenses to both U.S. and international universities for educational purposes. Universities are encouraged to execute five year license agreements to guarantee their free use of RELAP5-3D.

If, at any time, you have any questions regarding the above rate increase and your options, please contact:
